

WHAT IS THE EDPR UNIVERSITY CHALLENGE?

EDPR University Challenge is an academic competition promoted by EDP Renewables.

It seeks to stimulate the university community by giving students an opportunity to apply their academic knowledge to business practice of a topic area or project in the fields of Engineering, Management, Economics, Marketing.

THEMES FOR THE PROJECTS TO BE DEVELOPED

1. **Innovation:** Innovative projects which will lead to increased usage of renewable energy sources with an engineering or management approach;
2. **Efficiency:** Study of technological innovations that enable increases in efficiency of renewable energy production processes;
3. **Marketing/strategy:** Business plan or marketing strategy for increasing awareness of renewable energy and/or promotion of the EDPR Renewables activity in Poland;
4. **Sustainability:** Environmental concerns vs. local development.
